## Our philosophy

---

*We responsibility towards nature*

*We prefer locally grown products and consider ripe vegetables and fruits of the season. 75% our seasonal fresh produce are from Switzerland or nearby Europe.*

*responsability towards animals*

*We do not use any gelatin of animal origin and all our wines are vegan. In the interest of animal welfare we try to use vegan alternatives instead of products of animal origin- whenever appropriate and without disappearance of pleasure.*

*responsability towards our guests*

*We work with producers and partners who have the same standards of quality as we do. Milk, soydrink, coffee, tofu, feta cheese, free range eggs, chia seeds, soy sauce and more are purchased in organic quality. For everyone's pleasure all our dishes are carefully listed with their allergens.*

*We produce daily, with care and love. We choose our products consciously and use fresh and natural produce.*
